

Mappleborough & Winyates Green Pre-School

Curriculum Goals

Our curriculum is ambitious and aims to support all children to become:

A Confident Communicator

Who can express their thoughts and use vocabulary to share ideas. They are inquisitive and ask questions. They confidently converse with their friends and teachers.

An Amazing Achiever

Who settles into preschool life, enjoys learning and celebrates their unique achievements. They are resilient and confident to explore without fear of failure, bouncing back from challenges and having another go.

A Healthy & Active Individual

Who can move with confidence, in a variety of ways. They can make healthy choices and learn how to keep themselves safe through supported 'risky' play.

A Nature Explorer

Who is curious about the world around them and shows respect and care for all living things. They develop a lifelong love of nature. They embrace their place in the local community

A Fantastic Friend

Who is kind, considerate and forms strong relationships with others. They enjoy connecting with others, learning to share, and take turns. They have a positive attitude and awareness of their own and other cultures.

A Dynamic Designer

Who designs and makes their own creations, bringing their ideas to life! They use tools safely, with confidence and control and can write some recognisable letters. They can build and construct with small and large scale resources and materials.

An Inspired Individual

Who leads their own learning, making choices and thinking for themselves. They feel valued and are happy.
